

Emergency Portable Medical Oxygen Pressure Regulator with audio & visual Indicator

This new oxygen regulator offers both visual and audio alerts for low oxygen pressure, delivering several key benefits to maintenance and medical staff:

- For Maintenance Technicians: It enables quick and easy identification of oxygen cylinders that require refilling, ensuring technicians can maintain reliable and safe service for the medical team in all clinical situations where portable oxygen cylinders are needed.
- For Medical Staff: The early alert system helps prevent critical incidents by providing timely warnings of low oxygen pressure, ensuring uninterrupted oxygen supply during patient care.

Features & Benefits

- LED Indicators for Oxygen pressure:
 - Green - Oxygen Pressure Normal
 - Red - Oxygen pressure low*
- Audio alarm for low Oxygen pressure
- Test Button for leds & audio alarm
- LED Indicator (yellow) for battery charge**
- Inlet Connection: Pin indexed yoke or 3/4G
- Inlet Pressure: Up to 200 Bar
- Flow Selector:
 - 0.5, 1, 1.5, 2, 3, 4, 6, 8, 10, 15, 25 LPM
- Gauge:
 - 0-315 Bar - Standard, 0-4000 PSI - Optional
 - Gauge protection rubber - optional
- Material of Construction
 - Body: Nickle plated Brass

Applicable Standards:

- EN ISO 10524-1 (Pressure regulators with flow metering device).
- CGA E7 (American Standard)

Silbermann's Quality Management System:

- EN ISO 13485-2016

Distributed By:

* Alarm pressure set to 500 PSI (34 bars)- changeable upon order ±100 PSI (± 6.8 bars)
 ** Long battery life lasting for several years.
