

Vacuum Trolleys

In an operating theater, due to multi-positioning of vacuum requirements and space limitations, there is a need for a mobile suction unit to cater to the needs of the anaesthetist and the surgeon, during operation procedures.

Silbermann's Vacuum Trolleys gives an answer to these needs.

Features & Benefits

- 0-760 mmHg suction capability
- One 2 liters jar with vacuum regulation for specific suction
- One by-pass valve for line/strong suction*
- Overflow protection with trap bottles (2 for surgeon trolley)
- Wide base with five 3" casters for high mobility and stability

*Only for Surgeon trolley

Technical Data

- Suction generated via central vacuum supply
- 1 shutoff valve
- 1 Vacuum regulator 0-760 mmHg
- Base with five 3" casters of which one is antistatic
- Stainless steel jar basket (Two baskets in surgeon trolley)
- One 2 liter jar (Two jars in surgeon trolley)
- 3 meters long Ø5/16 ID hose (White or Yellow color)

Catalogue Number

Inlet Type*	Catalog No. for Surgery	Catalog No. for Anaesthetics
Silbermann- Ohio	4015000	4014000
Puritan	4015200	4014500
Din	4015300	4014600
No adapter (1/8" NPT female thread)	4015030	4014010

* Other Inlet/adaptor types available on request (e.g. ENV, DISS, NIST, BS, Chematron)
